INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1942 edition of the Bay City Directory, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 18, on white paper, presents lists of city, county, township and federal officials; post office, public school and court Directories; statistical review; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 316, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bay City and Essexville, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 317 to 391. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 52, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Bay City, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory Service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 445 to 488, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educa-

tional center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bay City and Essexville.

The Bay City Directory Library

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Bay City Filtration Plant

General Review

Modern Bay City, with a population of nearly 50,000, sprung from the roots of an international reputation in lumbering, is a prominent spoke in the industrial wheel of Michigan. The city has all the basic features of a manufacturing center, with none of the customary drawbacks. Here industry is diversified. Brooms and locomotive cranes, potato chips and automobile parts, steel ships and silk stockings, cigars and electric welding machines, are only a few of the things manufactured. Here industry is engaged in the great war effort—ships for the U. S. Navy, magnesium castings and other implements of battle for the air forces. Industrial employment approached 12,000 at the close of 1941.

Transportation facilities embrace four railroads—the Michigan Central, Pere Marquette, Grand Trunk and Detroit & Mackinac; several major trucking lines; and Saginaw River harbor, on Saginaw Bay, an arm of Lake Huron, is a regular port of call for the largest freighters on the Great Lakes. James Clements Airport, close to town, is one of the best-equipped fields of its size in the state. Bay City, with Saginaw and Midland, has agreed to build a mile-square super airport equidistant from the three cities, at a cost of nearly \$1,000,000.

Bay City's background is rich and picturesque. Five years ago, in 1937, the city observed its 100th birthday anniversary. This was once the camp-

ing ground of the Chippewa Indians, part of Saginaw Valley, then nestled in the midst of a fruitful pine land. The cutting of these forests formed an industry of immense proportions for those times and earned for Bay City the title "Lumber Queen of the World." Many colorful chapters of dynamic events in the history of logging in Michigan were written in and around early Bay City. When lumbering was at its height, more than 40 sawmills were located on the river banks. Now all but one have gone, to be replaced by other manufacturing plants.

Bay City is the governmental seat of Bay County, a highly productive agricultural area that features, among other things, sugar beets. One of the three sugar mills in the Bay City district is the largest east of the Rockies.

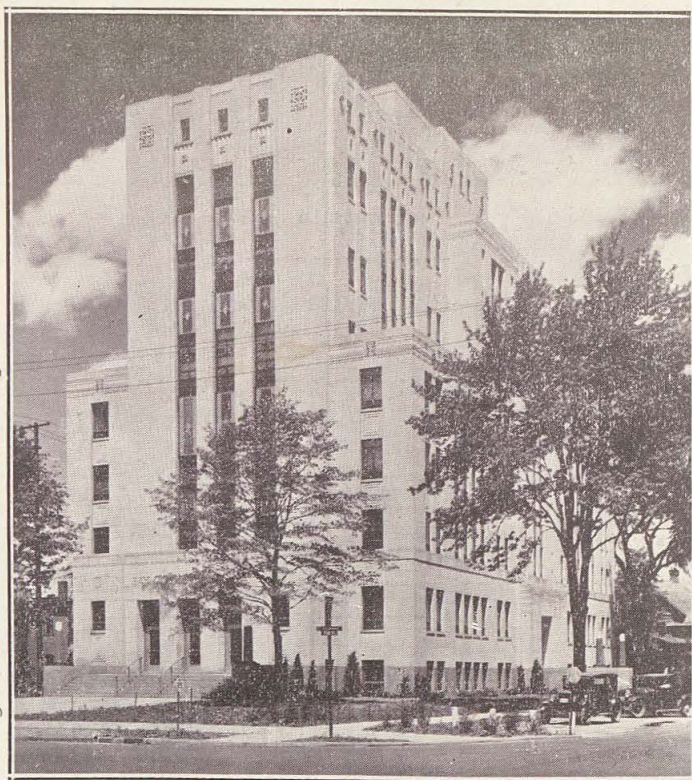

The growing of extra fine melons, tomatoes and other produce makes this the gardening spot of Michigan, and an important source of supply for many of the larger cities of the Middle West.

Bay City is not a town of portable citizens, sometimes called "Floaters." It is a city of thrifty home-owners (approximately 80%) who take justifiable pride in building their community into a more pleasant and profitable place in which to live. Since 1935 there have been nearly 1,000 houses built in Bay City.

Bay City is the portal of the famed tourist playground of northern Michigan—summer and winter. Hereabouts are the best boating, bathing, fishing, hunting and camping. The Michigan State Park on the bay shore, beautified to emphasize nature's work there, is second to none, and popular with hundreds of thousands from all over the land. Colonies of cottages skirt the water's edge for miles up and down the shore.

With an area of 11.5 square miles, Bay City has the modern equipment of the modern city. Its \$2,000,000 filtration plant supplies drinking water "to the queen's taste." Its \$2,200,000 public high school and junior college are keystones of educational facilities that also include 15 parochial schools. Wide, well-lighted streets and boulevards that are generously shaded by great trees, are sources of convenience, comfort and pleasure which Bay City has not overlooked in its march of progress.

Through its Chamber of Commerce, with headquarters in the Wenonah Hotel building, Bay City is shaping its course toward steady, healthy, well-balanced progress and the worth-while dividends of diversified community development.

POLK'S BAY CITY

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1942

INCLUDING ESSEXVILLE

Copyright, 1942, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with named streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

"The
DIRECTORY
IS THE COMMON
INTERMEDIARY
BETWEEN
BUYER AND SELLER"

R. L. Polk

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
